

***Quantitative Psychological Research:
The Complete Student's Companion
(3rd Edition)***

David Clark-Carter

Errata:

p. 278 – Table 18.19 should not have the word “p-value” in the 3rd column

p. 436 – equation should read as follows:

$$n = \left(\frac{0.84 + 1.645}{0.333} \right)^2$$

p. 567 – equation A14.7 should read as follows:

$$d = \frac{\log_e(\text{odds ratio})}{\left(\frac{\pi}{\sqrt{3}} \right)}$$
